Challenge to Overcome

MEDIA EDUCATION - CHALLENGE TO OVERCOME

3RD RESULT - MECO PLATFORM

The partnership has been working in the third result "MECO PLATFORM". It is available in the following link: www.mecoproject.eu and it is available in all the languages; English, Dutch, Italian, Lithuanian and Spanish.

We have decided to develop the MECO PLATFORM in which: The learner can consult and/or download the resources placed at his disposal, make its learning activities while following his progress in training.

Adult educators, trainers, teachers, participant organizations, can create and manages the educational content they wish to broadcast via the platform.

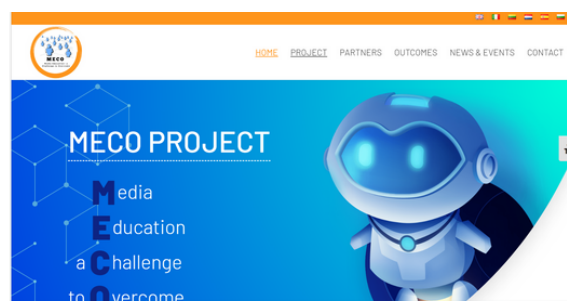

At this stage we are starting the piloting phase;

- Developing the guidelines for testing the MECO PLATFORM for the National piloting sessions
- Elaborate on the evaluation layouts and methodology for trainers/mentors and participants.
- Piloting participants will receive certification for their successful participation by each national partner.

LEARNING ACTIVITY
SPAIN

MECO TRAINING IN SPAIN

The aim of this learning activity is to Improve the level of skills of 15 EDUCATORS to adequately contribute to adult education and development.

Each partner will select 3 participants to attend a joint staff training event in Spain in May 2023 during five days.

The goal for partners is to test the Toolkit, the platform, share the experience, researches conducted on the national and European level, ensure mutual learning and understanding.

The training will contribute to a better understanding of the nature of the results and their finalizing and utilizing.

Each participant after the LTTA will receive the Europass Mobility Certificate where the knowledge skills and competencies gained during the mobility will be thoroughly described in order to contribute to the professional development of the attendees.

This will be another addition to their professional portfolio.

Europass Mobility Certificate will also contribute to the recognition of the skills, knowledge, and competencies acquired since it is a tool recognized on the European level.

Participants will also receive a certificate of attendance issued by STPC
